

## LEED (Leadership in Energy and Environmental Design)

was developed by the United States Green Building Council as a certification program for construction companies that wish to build green buildings or retrofit existing buildings to meet better environmental standards. LEED certification is measured in points and it is based on how much a building reduces operating costs and overall impact on the environment.

LEED for New Construction and Major Renovations certifications are awarded according to the following scale:

- Certified 40-49 points
- Silver 50-59 points
- Gold 60-79 points
- Platinum 80 points and above

## RESYSTA can contribute points as follows:

### Materials & Resources

- MR Credit 6 "Rapidly Renewable Materials" - Up to 1 point
- \*MR 5 (based on project location and U.S. production location) - **Up to 2 points**

### Indoor Environmental Quality

- EQ Credit 4.2 "Low-Emitting Materials: Paints & Coatings" - **Up to 1 Point**

### Innovation & Design Process

- ID Credit 1- "Innovation in Design" - **Up to 1 Point**

## Categories

- Sustainable Sites - 26 Possible Points
- Water Efficiency - 10 Possible Points
- Energy and Atmosphere - 35 Possible Points
- Materials and Resources - 14 Possible Points
- Indoor Environmental Quality - 15 Possible Points
- Innovation in Design - 6 Possible Points
- Regional Priority - 4 Possible Points
